

AISIN Europe's Record-Breaking Support for Télévie

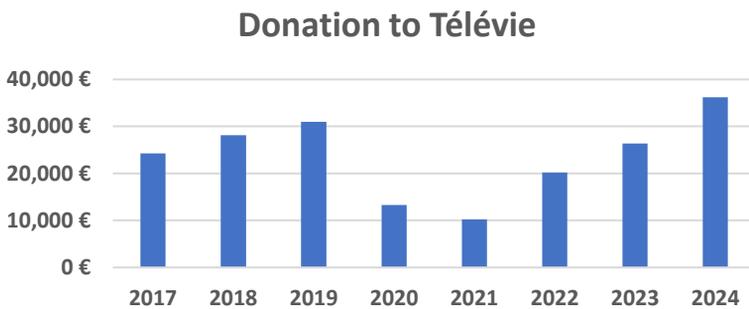

AISIN Europe supports Télévie with an annual donation resulting from proceeds collected during activities and events organised by employees over the course of the year.

This year, we broke our record collecting a total of 36.157€ - that is +37% increase compared to last year. This funding supports cancer research, patient care, and awareness campaigns run by Télévie. We were very proud to hand this cheque over during the annual live television show.

Since 2016, AISIN Europe has a team of engaged volunteers who organize activities throughout the year to the benefit of Télévie. Below are a few examples of activities made possible by our volunteers on both our sites in Belgium, Braine-l'Alleud & Baudour:

- Organization of gourmet kiosk
- Organization of Christmas / New Year breakfast
- Cultivation & sale of tomato plants
(1 colleague with his family contributes almost 4.000€ to the final result!)
- Sales of lasagne, candy & Télévie articles
- Sale of furniture belonging to the company (following office reorganisation)
- Tombola

Below is a graph illustrating the donations collected in previous years:

We are excited to continue our efforts for the next edition in 2025.

If you want to know more about Télévie, their activities and how the association contributes to saving lives head to their website: <https://televie.be/>
